

Health and Safety Policy

Soil Surveys based in SE Queensland, Provide geotechnical engineering advice to the construction industry.

Soil Surveys is committed to providing and maintaining a safe and healthy workplace for all workers, subcontractors, visitors, and the communities in which we operate. Health & safety is integral to our success in delivering projects.

We achieve success by:

- Provide safe systems of work and a working environment that prevents injury and ill health.
- Eliminate hazards and reduce H&S risks through effective planning, consultation, and control measures.
- Comply with applicable legal and other requirements relevant to our operations and projects.
- Consult and involve workers and subcontractors in H&S decisions that affect them.
- Continually improve our Health & Safety Management System to enhance performance and promote a strong safety culture.
- Ensure workers are trained, competent, and supported to safely carry out their duties.
- Plan and monitor measurable H&S objectives consistent with this policy to track our performance and improvement.

This policy provides the framework for establishing and reviewing H&S objectives and supports our commitment to proactive risk management, compliance, and continual improvement.

Soil Surveys is committed to following all our Integrated Management System which has been prepared to meet the requirements of ISO 45001:2018.
