

Quality Policy

Soil Surveys based in SE Queensland, Provide geotechnical engineering advice to the construction industry.

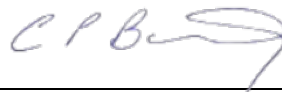

We achieve success by:

- Deliver reliable and safe services that meet project specifications, timeframes, and budgets.
- Satisfy applicable customer, statutory, and regulatory requirements for all projects and operations.
- Maintain a culture of continuous improvement, learning, and teamwork across all levels of our business.
- Engage, support, and evaluate subcontractors to ensure consistent quality outcomes.
- Plan and review quality objectives & targets that aligned with this policy to monitor performance and drive improvement.
- Promote open communication with clients, employees, and suppliers to enhance satisfaction and achieve successful project outcomes.

This policy provides the framework for setting and reviewing quality objectives, ensuring that the Quality Management System remains effective and aligned with our strategic direction.

Soil Surveys is committed to following our Integrated Management System, which has been prepared to meet the requirements of ISO 9001:2015 and, for our accredited laboratory activities, ISO/IEC 17025:2017.
